

## Sign up for EFTPS

Several banks are ceasing to accept Federal tax deposit coupons. Bank of America stopped accepting the payments on September 30, 2009. Intrust Bank will no longer accept the coupons as of February 1, 2010. If your business is still making tax deposits at the bank, you should consider signing up for EFTPS (Electronic Federal Tax Payment System). You can apply online at <https://www.eftps.com/eftps>. Select "Enrollment" from the top menu. You will need to provide your business name, address and EIN (Employer Identification Number). You will also need the routing number of your financial institution, your account number and type of account (checking or savings).
